PRICE INCREASE ANNOUNCEMENT!!

**BUY BEFORE APRIL 1st
SAVE ON THE FEDERAL TAX!!**

On February 4th, 2009 President Obama signed a massive tobacco tax bill. The Cigarette tax will INCREASE \$6.10 per carton however, manufacturers are raising the price \$8.00-\$10.00.

Cigars went from 4.875 cents each to 40.26 cents each. That is a 725% INCREASE on all cigars taxed NATIONALLY. I expect the cigar manufacturers to raise prices similar to the cigarette manufacturers. Most cigar manufacturers have already raised prices 10%-20% with more increases arriving April 1st.

We have increased our inventory so by ordering now you can save the future taxes. Our House Blends are our best value (many priced under \$100 per box). Now is a great time to sample these quality smokes at low prices.

Prices are changing daily so check our website www.nickscigarworld.com, and we will honor our published prices at the time of your order as long as we have your product in stock.
