

Tabacalera Perdomo

Perdomo releases new Habano. The new Perdomo Habano blends tobaccos from Nicaragua's three most famous tobacco growing regions, Esteli, Condega and Jalapa. Available with a Maduro or a Corojo wrapper, Perdomo Habano cigars come in five sizes: Robusto (5 x 52), Toro (5.5 x 54), Torpedo (6.5 x 54), Gordo (6 x 60) and Presidente (7 x 56). Recognized as one of the pioneers in packaging, Tabacalera Perdomo has done it again by designing all of the artwork for Perdomo Habano, incorporating the company's stylish logo with priceless Cuban artwork from the early 1900s.

Each cigar is double banded with the primary band depicting the different growing regions on the sides, including "Habano" in recognition of the Cuban seeds the company uses to grow these tobaccos. The foot band, which prominently defines the cigar's wrapper, also protects the cigar when the cellophane is removed. Perdomo Habano cigars are now available and can be ordered by contacting Tabacalera Perdomo at 5150 N.W. 167th St., Miami Lakes, FL 33014; phone: 888-642-5797; fax: 305-627-6414; e-mail: arthur@perdomocigars.com; Web site: www.perdomocigars.net.
